

TURK GOVERNMENT SEEKS COMPROMISE

Seizure of Strategic City in Asia Minor Precipitates Major Crisis, Paris Hears.

PARIS, Oct. 8.—Gen. Ali Riza Pasha, the new Turkish Grand Vizier, has opened negotiations with Mustafa Kemal, the Turkish Nationalist leader, whose troops recently took possession of the strategic city of

Koniah (virtually dominating South-east Asia Minor), according to a despatch from the special correspondent of L'Information at Constantinople.

Turkish Nationalist troops said to number upward of 200,000 men and commanded by Mustafa Kemal seem to have precipitated in Asia Minor on a major scale a crisis similar to that which arose in Dalmatia when Gabriele d'Annunzio seized Fiume.

There is a feeling that the situation in Asia Minor has gone beyond the control of the Turkish Government, and that the Allied Powers are helpless, at present, to do anything to bring military pressure to bear and afford any appreciable relief.

KING GEORGE SEEKS NEWS OF WILSON

Sends to the American Legation to Learn of the President's Condition.

LONDON, Oct. 8.—King George, who is 82, is concerned over the illness of President Wilson, to-day sent his private secretary, Col. Clive Wigram, to the American Embassy to seek the latest news regarding the President's condition.

Col. Wigram also was instructed to express His Majesty's sincere sympathy with the President and Mrs. Wilson.

The Chronicle says to-day: "No sick bed of our time, or perhaps any other time, has commanded such universal concern and sympathy. Not only America, but mankind, has a lot and part in the President's welfare."

"Political and diplomatic circles are seriously preoccupied over the President's illness," says the Daily Mail. "Really no man in the world concerns the world more than Mr. Wilson. In Great Britain, we await news from him not less anxiously than do the American people themselves."

BEWARE OF "FLU," IS DR. COPELAND'S NEW SUGGESTION

Report of Fourteen Cases This Week Brings Forth Rules to Avoid Attack.

Fourteen cases of Spanish influenza were reported to Dr. Royal S. Copeland, Health Commissioner, yesterday.

Dr. Copeland said that nothing even approximating an epidemic of influenza has been noticed and it is unnecessary for New York City's 6,000,000 to become panicky.

There were thirty-six cases in Greater New York reported last week, against but twenty-four for the preceding week.

Individual precautions against an increase this week should be redoubled. Personal cleanliness and isolation of persons affected are the greatest preventives against an epidemic. The Health Commissioner asks that both precautions be rigorously observed.

Least year's epidemic started Sept. 27. One year ago to-day there were 375 cases reported.

Spanish influenza cannot become epidemic if these rules are followed: "The person who coughs or sneezes discharges a spray more deadly than bullets or poison gas, unless the mouth and nose are covered by a handkerchief. Spitting in public places and dry sweeping are dangerous and unlawful."

"Classes and eating utensils which have been used in restaurants and other public places, or even by members of your family, must be sterilized by washing in boiling water to destroy the germs sticking to them."

"The hands of a person who has a running nose, a 'cold in the head,' or 'flu' are smeared with germs; therefore if you have touched your nose or handled any article he has touched, avoid touching your lips, nose or eyes until you have carefully washed your hands. Never eat without first washing your hands."

"To avoid infecting your child, do not kiss it near its mouth; it is unsafe to kiss your child before washing your face."

"Do not visit one who has flu or pneumonia."

"Those who have colds or flu risk their lives and the lives of others by going to work or to school."

"Keep yourself fit by avoiding overwork and overeating, worry, fatigue, lack of sleep and unventilated rooms in the home, shop, factory or place of amusement."

SAILORS' FISTS FLY IN STAITD PLYMOUTH

American and British Tars Mix It Up in Whole Series of Free-for-Alls on Streets.

LONDON, Oct. 8.—A despatch to the Daily News from Plymouth to-day says that there already have been several lively encounters there between British and American sailors, and that a whole series took place late Monday evening.

There were several fights in Frankfort Street, Union Street and George Street, where American sailors fought with civilians and British tars. The police cleared the street, only to have to repeat the process in another, but gradually the opposing sailors were turned in opposite directions. American provost guards lending a hand. Sunday night there was a similar row in Exeter Street.

WITHDRAW MILITARY UNITS FROM BOSTON

Provisional Battalion Guarding City During Police Strike Is to Entrain To-Night.

BOSTON, Oct. 8.—In announcing a policy of reducing the military forces now guarding the city because of the police strike, by relieving units from time to time as circumstances seem to warrant, Brig. Gen. Samuel D. Parker, commanding the State troops, said to-day that a provisional battalion of the 20th Regiment of State Guard, from the Western part of the State, would be relieved to-day, and would probably entrain immediately for home.

FIND 200 TONS OF SUGAR HOARDED IN BROOKLYN

Food Controller Williams Starts a Crusade Against Dealers.

Convinced that the reported sugar shortage is largely caused by the hoarding practices of many wholesalers, Federal officials early to-day announced that they were prepared to prosecute criminally all offending dealers.

The crusade against these dealers was started by Federal Food Administrator Arthur Williams, following reports that dealers have 200 tons of sugar concealed in Brooklyn.

United States Attorney Francis G. Caffey will prosecute under the Lever act all those obviously hoarding sugar for higher prices.

Junior Boys' Clothing (for boys of 3 to 10 years)

is shown in its own individual section of the Boys' Clothing Department, on the Sixth Floor

The Autumn and Winter assortments, now receiving daily augmentations, are unusually attractive. The models are smart, manly (as the growing boy always wants his clothes to be), and remarkably well tailored.

Among the special values in regular stock are the following:

Middy Suits of fine-quality knitted cloth (very soft and warm) in attractive heather colorings; knee-length trousers; embroidered insignia on collar and sleeves, \$12.00

Sailor Suits (several models) and regulation Middy Suits of blue serge; all with knee-length trousers \$14.50

Overcoats of fine-quality wool materials, every model wool-lined, \$16.50 to 35.00

Boys' Hats and Caps

(especially featuring the new stitched cloth models) are shown in a very large assortment, covering a wide range of styles, materials and sizes.

The Department for Electrical Utilities

offers for the housewife's convenience many practical and labor-saving devices, especially desirable for use in small apartments.

Among them are

Chafing Dishes, Coffee Percolators and Urns, Toasters, Grills, Disc Stoves, Radiant Heaters, Flat Irons, Heating Pads, Water Kettles and Heaters, Egg Boilers, Curling Irons and Flashlights.

All of these articles are of nickel and of the best obtainable makes, while the prices are moderate.
